

DEMOCRACY FOR THE 21ST CENTURY

Vote **Paul Robinson** for a new kind of MP

It's time your own values became the paramount concern for our politicians. I want to ensure our leaders listen to what you have to say on new housing, safer roads, better public transport and cleaner energy. The legacy parties will continue to disappoint by only focussing on their own agenda, and by ignoring what you want. We're offering a new way of creating policy which puts you in control.

**SOME
THING
NEW**

Are you ready for Something New?

We're a new kind of political party. We're here to bring British democracy into the 21st Century.

We know you're frustrated with traditional politics, but most politicians think that means you don't care about the world. We know that's wrong. We know you care more deeply than ever before, but that our institutions don't hear you.

Our manifesto is unique. It's the only manifesto where you can go to the website, click edit, and put in your own ideas. It's like Wikipedia, but for a vision of a better future. We are creating a manifesto that reflects the future you want, built by your values. We know that the best ideas come from all of us, working together.

NATIONAL POLICIES

Build world-beating public services, owned by the public and run for their benefit. **Protect the NHS** from privatisation, and from politicians.

Reform voting systems to better represent people.

Replace fossil fuels with **renewable and nuclear energy**, and commit to fossil-free road transport by 2030.

Safeguard our basic freedoms, and stop intelligence services spying on us by default.

LOCAL POLICIES

Provide **safer roads** with more crossings for pedestrians, cyclists and wheelchair users.

Increase the availability of **public transport** to GP surgeries and hospitals.

Support renewable energy instead of fracking or oil drilling.

Help communities plan housing that suits their needs.

About Paul

I have lived in Godalming with my wife Rebecca for the last 6 years. I'm currently a freelance HR consultant, working to recruit doctors and nurses for a hospice in South London. I previously worked in a local school, and was a Logistics Officer in the Armed Forces for 8 years.

I'm standing for Parliament because voters don't have enough choice. We deserve better than picking between the two parties that have formed the government for the last 5 years. I don't like the undignified fighting for votes over immigration, or politicians stating proudly how they will make the deepest cuts to our public services. We need better housing; cleaner and cheaper energy; jobs that pay a living wage with regular hours. And, we need to move around without being knocked down on polluted and dangerous roads. Nobody is representing the way I see the world: with optimism and a real vision of a better future.

There is a movement growing that will take democracy forward into the 21st century. We can all have our own voice on what we care about. I'm proud to be part of that movement with Something New.

Transparency & Accountability

I have signed the MyMP pledge (mymp2015.org.uk). I will listen to and vote on behalf of my constituents, not be told how to vote by parties or lobbyists. Something New has committed to never having a party whip. We also publish all our spending and donations openly for everyone to see: havesomenew.io/money
